Yes, I did add comment bubbles...

For HOF - Assuming this is hair on fire...I would take this off...and mention it separately in the opening line. Because by definition HOF means top of the list.

For third sentence on Scientific Review - Is this something we should update and formalize? Maybe now is the time to do this. **Ex. 6 Personal Privacy (PP)** and I should come up with this plan.

For second paragraph under Sci Rev - One thing I am trying to understand – the RAD mgmt review is only on the HH risk assessment, right? Is there no RAD management accountability for any other discipline? Or is the idea that this POC meeting may identify other, non-HH issues that require RAD mgmt.

Regards,

Did you add comment bubbles? Can't see those. I will find any text edits with a close read. What a pain in the ass.

Great! It took some air drop maneuvers to get it converted and into one drive. Glad you can open it.

I would like to send to Ex. 6 Personal Privacy (PP) mid morning. Please let me know if you have any edits and I'll make them. Think there's some typos in there I need to fix as well. Thanks!
